Agenda Ver 7
29th April 2021

1000-1030

INAUGURAL SESSION

Sameer Kochhar
Chairman
SKOCH Group

Gursharan Dhanjal
Managing Director & Editor,
SKOCH Group

India is a federation of states. There are State subjects, Central subjects as well as a Concurrent list. Citizens now expect government to deliver quality online services with uninterrupted connectivity at all times. This expectation presents a challenge and can cause a spiralling effect on development programmes including those related to digital governance. Priorities of the government alternatively are not merely the efficient delivery of citizen services but also to focus on security, privacy and data. In the connected government framework at the centre, each ministry may create its own applications and then take it national through state governments. These include programmes like National Digital Health Mission, Education, Agriculture and Land & Property Dematerialisation.

Operating a connected government requires a fresh approach to conceiving national level programme rollouts, collecting and analysing information and delivering keeping the end-customer in vision. It would be interesting subject to study how the states integrate the national connected government vision with their own.

Connected government is not about technology alone, it is about self-service portals, voice activated assistants, unified digital platforms and so on. State government are increasingly adopting modern technologies to deliver enhanced value to its citizens. The focus is shifting from reactive and responsive to proactive and predictive. For example, the government has turned to technology to mitigate the impact of Covid-19 that has given encouraging results.

Government has to address significant citizen concerns while using technology for civic engagement and confidence building. A connected government implies collaboration among all the federal governments and programmes to align services and delivery to citizen's felt-needs with a single citizen view. The 73rd SKOCH Summit deliberates on the vision of state governments on how they see their own connected government approaches pan out between 2021-25 by when India is poised to become \$1 trillion digital economy.

INAUGURAL SESSION	
1000-1005	National Anthem
1005-1010	Welcome: Dr Gursharan Dhanjal , Managing Director & Editor, SKOCH Group
1010-1020	Opening Remarks: Mr Sameer Kochhar , Chairman, SKOCH Group
1020-1025	Live Voting

DISTRICTS

Madan Mohan
Senior Fellow, SKOCH Development
Foundation & Former CGM, NABARD

K Thavaseelan
Deputy Commissioner
District Administration Mon

Venkata Rao Suthapalli
Collector & District Magistrate
District Administration Mahabubnagar

MV Reddy
Collector & District Magistrate
District Administration Kothagudem

G B Panda
Senior Fellow
SKOCH Development Foundation

Nirmal Bansal
Senior Fellow, SKOCH Development
Foundation & Former Banker

Districts are the face of the governance which interface directly with the citizen. It is an ideal situation to have an integrated view of the government for the citizen with a single sign-on to have a single user interface. It makes the government agile, responds quickly to new situations, particularly a situation like COVID-19. For citizen, it would mean reduced number of visits to the government office, improved governance and with the availability of error free data, better targeting and delivery of services. The Panel discusses the following:

1. What needs to be done to improve this integration?
2. What are the impediments?
3. Given the current challenges, how to leverage data and see its functionality across all applications, services and departments?

DISTRICTS		
1030-1035	Moderator: Mr Madan Mohan , Senior Fellow, SKOCH Development Foundation & Former CGM, NABARD	
1035-1040	Mr Thavaseelan K , Deputy Commissioner, District Administration Mon	
1040-1045	Mr Venkata Rao Suthapalli , Collector & District Magistrate, District Administration Mahabubnagar

1140-1240

LOCAL BODIES

Nirmal Bansal
Senior Fellow
SKOCH Development Foundation

Bini K U
Secretary
Kozhikode Municipal Corporation

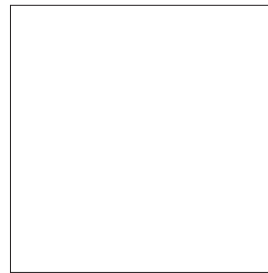

Animesh Bhattacharya
Collector & District Magistrate
District Administration Kothagudem

Bhagwantrao Patil
Chief Executive Officer
Zilla Parishad Jalgaon

UK Sharma
Senior Fellow
SKOCH Development Foundation

Shreeja CS
Chairperson
Nedumangad Municipality

The evolution of local governance in the present system of Panchayati Raj Institutions and various types of Municipal Bodies goes along the constitution models in the form of 73rd and 74th Constitutional Amendments. Local bodies are the interaction layer for the citizens. For citizen, it would mean transacting online and for government, availability of error free data, better targeting and delivery of services. It makes the government agile, responds quickly to new situations, particularly a situation like pandemic. The Panel discusses the following:

1. What needs to be done to improve this interaction?
2. What are the impediments?
3. Given the current challenges, how to leverage data and see its functionality across all applications, services and departments?

1140-1145	Moderator: Mr Nirmal Bansal , Senior Fellow, SKOCH Development Foundation & Former Banker

JOBS & EASE OF DOING BUSINESS

Bhushan Mohan
Senior Fellow
SKOCH Development Foundation

Shailaja Ramaier
Commissioner, Department of
Handlooms and Textiles, Telangana

S Narasimha Murthy
Additional Labour Commissioner,
Department of Labour, Karnataka

Abhishek Agarwal
President
Judge India Solutions Private Limited

Lingraj Panda
State Project Director, Odisha Adarsha
Vidyalaya Sangathan

Shefali Dash
Distinguished Fellow
SKOCH Development Foundation

Economies are ranked on their ease of doing business from 1-190. India is currently at 63rd rank, ascended 17 notches from 2019. Ease of Doing Business includes business / regulatory reforms, getting credit, paying taxes, contracting with the government and employing workers. We need to do some out of the box thinking. The panel discusses the following:

1. What needs to be done for India to improve its rankings on Ease of Doing Business?
2. What are the impediments and how to overcome these?
3. How to increase jobs?

JOBS & EASE OF DOING BUSINESS

INNOVATION

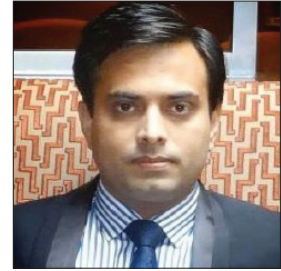

Gursharan Dhanjal
Managing Director & Editor
SKOCH Group

Chandra Vanu Som
Additional Chief Secretary, Sports, Youth and
Cultural Activities Department, Gujarat

Hanif Qureshi
DG, New & Renewable Energy Department
Haryana & HAREDA

Satish Pandey
Principal Scientist
CSIR-Central Road Research Institute

M P Parvathee Devi
Superintendent, Government Ayurveda
Research Institute for Mental Diseases

Amitava Akuli
Joint Director, Centre For Development
of Advanced Computing (C-DAC)

Shefali Dash
Distinguished Fellow
SKOCH Development Foundation

Innovation has macroeconomic impact as well as pushes productivity and competitiveness. The role of government is to invest in science, incentivise and to create necessary infrastructure. So, interdependence, knowledge transfer and sustained investment become critical to innovations. The panel discusses the following:

1. Innovation relies on skills and infrastructure that need investments. How can we achieve better coordination for desired results?
2. Innovation is becoming more international – how to build on national policies to draw on ideas and best practices so that it does not develop in a vacuum?
3. How to take these innovations to market?

1440-1445	Moderator: Dr Gursharan Dhanjal , Managing Director & Editor, SKOCH Group
1445-1450	Mr Chandra Vanu Som , Additional Chief Secretary, Sports, Youth & Cultural Activities Department, Government of Gujarat
